Crystal Icons

Thanks for downloading this file, we appreciate your effort in doing things right. The Crystal Project is released under **LGPL**.

We, from Yellowicon, allow the use of Crystal Project as long as Everaldo Coelho is credited as the creator. It would be great if you please include links to both www.everaldo.com and www.yellowicon.com.

In case of changes in any part of Crystal Project, it's important to mention it in a section of your software license/about.

As this Project is released free of charge, we would appreciate a PayPal donation to everaldo@everaldo.com so we can keep releasing great icons for free.

If you still have doubts about the use, you can find the full version for LGPL license here*.

Feel free to email us at contact@yellowicon.com or contact@everaldo.com.
